For further information please use the [i360 link](#) or contact us direct.

Main Contractor –
Harrabin Construction Ltd

Client – Warwick School,
Estates Manager
Mr Westley John

Warwick School is the oldest boys' school in England; it is mentioned in the Saxon chronicles of 914 AD and was re-founded by King Henry VIII and re-named the Kings New School of Warwick in 1545, and only reverting back to the name of Warwick School in 1906.

Set in some 50 acres of beautiful grounds adjacent to the River Avon, it was the construction of a new sports centre, complete with a 25m indoor heated pool, squash courts, a large gymnasium and Internal climbing wall that instigated this historic seat of learning to seek out the services of DM Glazing Systems to work on this prestigious new build project.

The motto of Warwick School is "Altiora Peto" which translated means "I Strive (or aim) for Higher Things" so from the outset it was clear that quality, performance and longevity of products, service and installation would be of paramount importance.

DM Glazing Systems works with a range of glass related products across several disciplines and on this project a select number of our products and services were called upon - these included:

- Balustrades, internal & external in glass / stainless steel
- Automatic entrance doors & side screen units
- Structural bolted double glazed external screens and facades
- Glass canopies

No two projects are ever the same. Clients' aspirations for how the product looks and performs the ease of use and maintenance all need to meet their expectations, whilst working alongside commercial reality and within budgets and timescales.

This is where DM Glazing Systems' expertise comes into its own. We have no shortened or restrictive opportunities for product selection and keep abreast of new and innovative development. Our years of experience coupled with a close working relationship with a select group of manufacturers, mainly in the UK but also further afield, gives our clients choice so when it comes to delivering the best of products, as for Warwick School, we were able to match all of their requirements.

Warwick School - as we aim to do every time, on every project - came in under budget, was completed to schedule and if you take a look at the [i360 link](#), we think you will agree it's a job with the wow factor! Ensuring the continued good service combined with practicality for what is undoubtedly one of the most impressive school sports facilities in the country.

DM Glazing Systems is proud to be a part of and associated with this project.
